

ACTS FUSION PORTAL

<http://www.cleonit.com>

About This Presentation

- This Presentation is about ACTS FUSION PORTAL
- A state-of-the-art best-in-class community portal for communities and enterprises.
- The design was brought up as organizations, institutions and communities requires better ways of communication seamlessly integrated into the enterprise.

OVERVIEW

Introduction

- The 21st Century presents an information driven society and to become successful in this digital age there is need to provide relevant information to the people that require it at the appropriate time in the appropriate time on any compatible. This would definitely reduce administrative workloads, simplify deployments, enhance communication and put an institution on the global edge.
- To facilitate the ease that the digital age has ushered in; it would require a state of the art intranet with robust information portal that would provide communication, collaboration, consistency and consolidation.
Needless to say we are in the information age, the tons of paperwork and voice calls can be easily eliminated through community centered intranet utilizing the 4 C's of today's information environment.

About ACTS

- ACTS FUSION PORTAL is a state-of-the art enterprise class community portal that is built on modern technologies. ACTS FUSION PORTAL facilitates productivity in the enterprise through community centered collaboration technologies. Acts Fusion is built on a modular architecture which greatly reduces management overheads and simplifies use in diverse ways without scaling down on the functionalities. This also enables it to seamlessly plug-in to existing infrastructure with ease.
- ACTS FUSION PORTAL is essentially a suite of applications that drives productivity within the enterprise. Built to be modular, it makes for easy management and clients can order specific modules as at when they want it.

Thinking Community Portal? Think ACTS FUSION!

- Acts Fusion Portal provides an easy-to-use graphical user interface that simplifies the management and publishing of large volumes of content including HTML, documents, and rich media. Acts Fusion Portal is designed for use in organizations of all sizes for Public Web sites, Intranets, and Extranets.

A new framework, ground-up re-factoring, and a highly-active development team brings the excitement of 'the next generation community portal' to your fingertips. Whether you are a small business or an enterprise, Acts Fusion Portal can take you to the next level of content delivery.

ACTS Fusion in Your Community

- ACTS fusion is always uniquely branded for the enterprise that is to be used. The Features and applications are presented through five distinct websites.
 - www.cucp.edu (Portal base point)
 - www.hebron.net (The core value site)
 - www.5points.com (The learning Place)
 - [www.holdsomething .debe](http://www.holdsomething.debe) (The technology place)
 - www.nodulling.com (Community life and personals)
 - Videos.hebrontube.com (The video network)

ACTS SCREENSHOTS

Portal base point that introduces users to the community portal, its features, functions, applications and how to get started

The screenshot shows the Covenant University Community Portal (CUCP) website. The browser address bar displays www.cucp.edu. The page has a yellow and black theme with a sunburst graphic at the top. The header features the CUCP logo and navigation links: Home, Learn, Work, Play, and About. A search bar is located on the right side of the header. A red ribbon badge in the top right corner reads "ACTS v3.0".

The main content area is divided into several sections:

- COVENANT UNIVERSITY**: A large image of the university's logo.
- CATCH A DREAM TAKE A THROSE**: A quote from Bishop David Oyedepo, "The Vision: Covenant University, Bishop David Oyedepo", accompanied by a portrait of the bishop.
- NAVIGATION**: A sidebar with links: Announcement, Phone Directory, Fests Links, Contact, and About.
- ACTS FUSION PORTAL**: A section titled "The Portal of Choice! Built on web 2.0 technologies." with a blue puzzle piece icon.
- CUCP**: A section titled "Covenant University Community Portal, ACTS Fusion Powered" with a red puzzle piece icon.
- Welcome**: A section with a red heading and a paragraph: "This is Covenant University ultramodern state-of-the-art enterprise community portal to enhance work processes, accelerate learning, improve communication and general lifestyle. This community portal is powered by CLEON's newest release ACTS Fusion Portal version 3.0B Release Candidate 2. It has some awesome features never seen before in portal management systems. Modules include Instant Messaging, e-Learning system, Project Management, Voice Over IP, etc."
- Feature list**: A section with a red heading and a small image of a clapperboard.

<http://www.cleonit.com>

HebronNet is the News center: local, international and Community news.

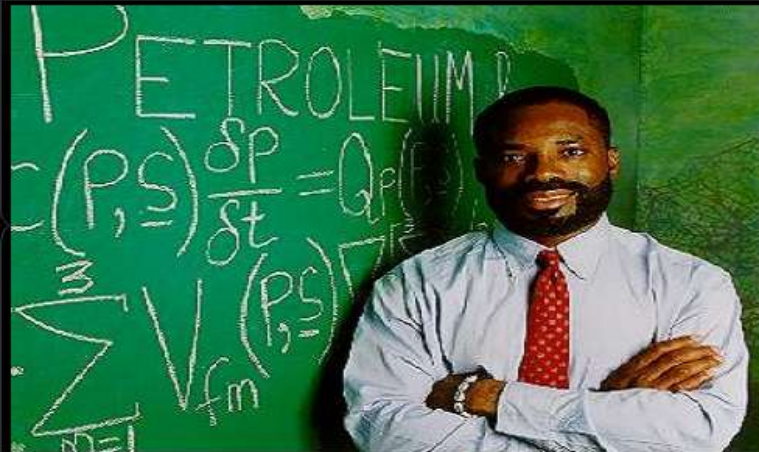

The screenshot shows the HebronNet website interface. At the top left is the logo with 'HN' in a blue square and 'HebronNet' in blue text, with the tagline 'Birthplace of Kings and Queens' below it. To the right is a search bar and a 'Text Size' control with minus and plus icons. Below the logo is a horizontal navigation menu with links: HOME, WORLD, INITIATIVES, BUSINESS, TECH, LIFE AND STYLE, COMMUNITY, IMPACT, MY VALUES, MY SCHOOL. A secondary menu below that includes: Management, Csis Portal, Helpdesk, Specials, Notice Board, Gallery, Submit Article. The main content area features a large image of a library with rows of bookshelves. To the right of the image is a dark blue box containing the date 'Monday 18 October' and a clock icon. Below the image is a section titled 'University Library :: Center For Learning Resources' with a paragraph of text. To the right of this section is a 'Newest Articles' list with five items: 'Serials Section', 'University Library :: Center For Learning Resources', 'CU gets kudos at International Conference on Renewable Energy', 'Covenant University rolls out drums as VC turns 50', and 'CLR'. At the bottom, there is a 'World' news section with a 'Display' control showing '0 | 5 | 10 | 15 Stories'. It is divided into three columns: 'Top Story' with the headline 'Paraguay's New President May be Moderate', 'Other Stories' with headlines like 'FDA Visits Mexico Farms Tainted Tomatoes' and 'Chavez Protests EU With Oil Threat', and 'Topics' with categories like 'North America', 'South America', 'Europe', and 'Asia'. A watermark 'http://www.cleonit.com' is visible over the 'Other Stories' column. On the far right, there is a small image of a large crowd of people.

The learning place connecting learners to the resources they require to be progressive

Allow the president to invade a neighboring nation, whenever he shall deem it necessary to repel an invasion, and you allow him to do so whenever he may choose to say he deems it necessary for such a purpose - and you allow him to make war at pleasure.
Abraham Lincoln

Introducing Holdsomething

<http://www.cleant.com>

Campus life and personals goes here

The screenshot displays the Nodullin website interface. At the top right, the date is "SUNDAY OCT 17". A search bar is located in the top right corner. The main header features the "nodullin' Campus Life & Personals" logo and navigation buttons for "HOME", "FEATURED", and "MQUEST".

The main content area includes a "HOME" section with a banner for a "Worship Concert" by the "Covenant University Choir". The banner text reads: "A unique spiritual perspective to worshipping the iconic God we serve. An absolutely magnificent experience." The event details are: "University Chapel Saturday May 8th 2010 6:00pm". The banner also features the text "this God WORSHIP CONCERT" and a "READ MORE" button.

Below the main banner, there are three sidebars:

- DAILY POLL:** "Favourite Gadget?" with options: Camera, Laptop, MP3 player, Mobile/Cell. Buttons for "Vote" and "Results" are present.
- Welcome to Nodullin':** A post from "Tuesday, 30 December 2008 03:30" titled "Set yourself Free@NoDullin'". The text says: "Nodullin' is the premier spot for your entertainment, campus yans and personals. You can setup your own blog, use the web chat or connect with frineds on the Cubed Social network. just Hit on the links to unleash Nodullin." A small image of a red building is shown with a "NODULLIN'" label.
- NODULLIN' LINKS:** A list of links: Blogger, Instant Messaging, Cubed, e-Mail, Toons Weekly, Xpressive Faces.

At the bottom center, the URL <http://www.cleonit.com> is displayed.

Fountain Pen

A **fountain pen** is a nib pen that, unlike its predecessor the **dip pen**, contains an internal reservoir of water-based liquid ink. From the reservoir, the ink is drawn through a feed to the nib and then to the paper via a combination of gravity and capillary action. As a result, the typical fountain pen requires little or no pressure to write. Filling the reservoir with ink may be done manually (via the use of an eyedropper or syringe), or via an internal "filler" mechanism which creates suction to transfer ink directly through the nib into the reservoir. Some pens employ removable reservoirs, in the form of pre-filled ink cartridges.

Contents [hide]

- 1 History
- 2 Nibs
- 3 Filling mechanisms
- 4 Cartridges
- 5 Fountain pens today

- 7 References

These Parker Duofolds from the 1920s used the Lucky Curve feed system and self-filled using a "button filler". They were quite long; nearly 7 inches long when posted.

History

[\[edit\]](#)

The earliest historical record of a reservoir pen dates back to the 10th century. In 953, Ma'ad al-Mu'izz, the caliph of Egypt, demanded a pen which would not stain his hands or clothes, and was provided with a pen which held ink in a reservoir and delivered it to the nib, and could be held upside-down without leaking, as recorded by Qadi al-Nu'man al-Tamimi (d. 974) in his *Kitdb al-Majalis wa 'l-musayardt*.^[1] No details of the construction or mechanism of operation of this pen are known and no examples have survived.

In his *Deliciae Physico-Mathematicae* (1636), German inventor Daniel Schwenter described a pen made from two quills. One quill served as a reservoir for ink inside the other quill. The ink was sealed inside the quill with cork. Ink was squeezed through a small hole to the writing point. Noted Maryland historian Hester Dorsey Richardson (1862–1933) documented a reference to "three silver shillings, worth 15 shillings" in England during the reign of Charles II, ca. 1649–

Hebron Tube: Content the web2.0 way delivering a YouTube Like experience in your local net

The screenshot displays the Hebron Tube website interface. At the top left is the Hebron Tube logo, which includes a green monitor icon and the text "HEBRON TUBE". To the right of the logo is a search bar with the text "videos" and a "Submit" button. Further right, there is a welcome message: "Welcome to Web TV Register Today Login". Below the search bar is a navigation menu with buttons for "Home", "Videos", "Audios", "Categories", "Groups", "People", and "Upload". The "Upload" button is highlighted in yellow.

The main content area features a video player showing a man and a woman smiling. Below the video player is a yellow bar with the text "Best Workplace". To the right of the video player is a "Related Videos" section with four video thumbnails and their respective titles, ratings, and view counts:

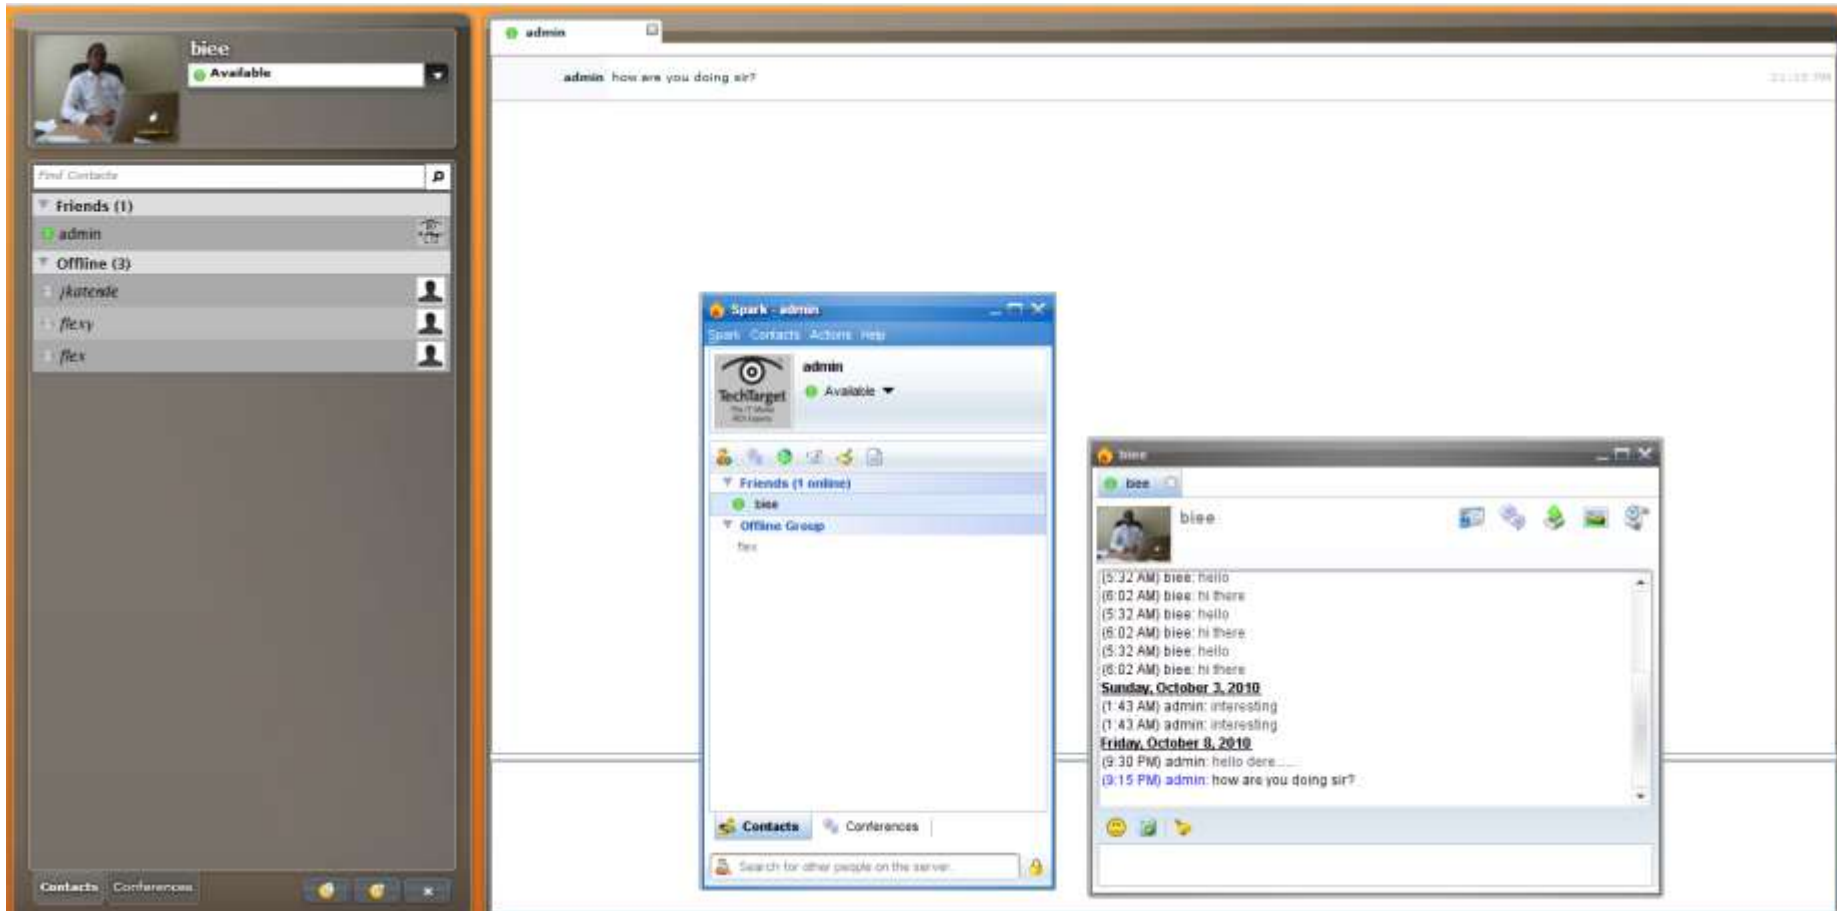

- Life at Google (Rating: 0, Views: 0)
- Google MasterPlan (Rating: 0, Views: 1)
- Unified Communication @... (Rating: 2, Views: 6)
- At Work (Rating: 0, Views: 7)

Below the video player is a section for the video's metadata and sharing options. It includes a small thumbnail of the video, the title "Working at Google", and the tags "GOOGLE work". There are also options for "Bookmark", "Report Abuse", "Add Favorites", "Download Video", "Add to Playlist", "Create new Playlist", and "Share with friends". The video is uploaded by "tdiipo".

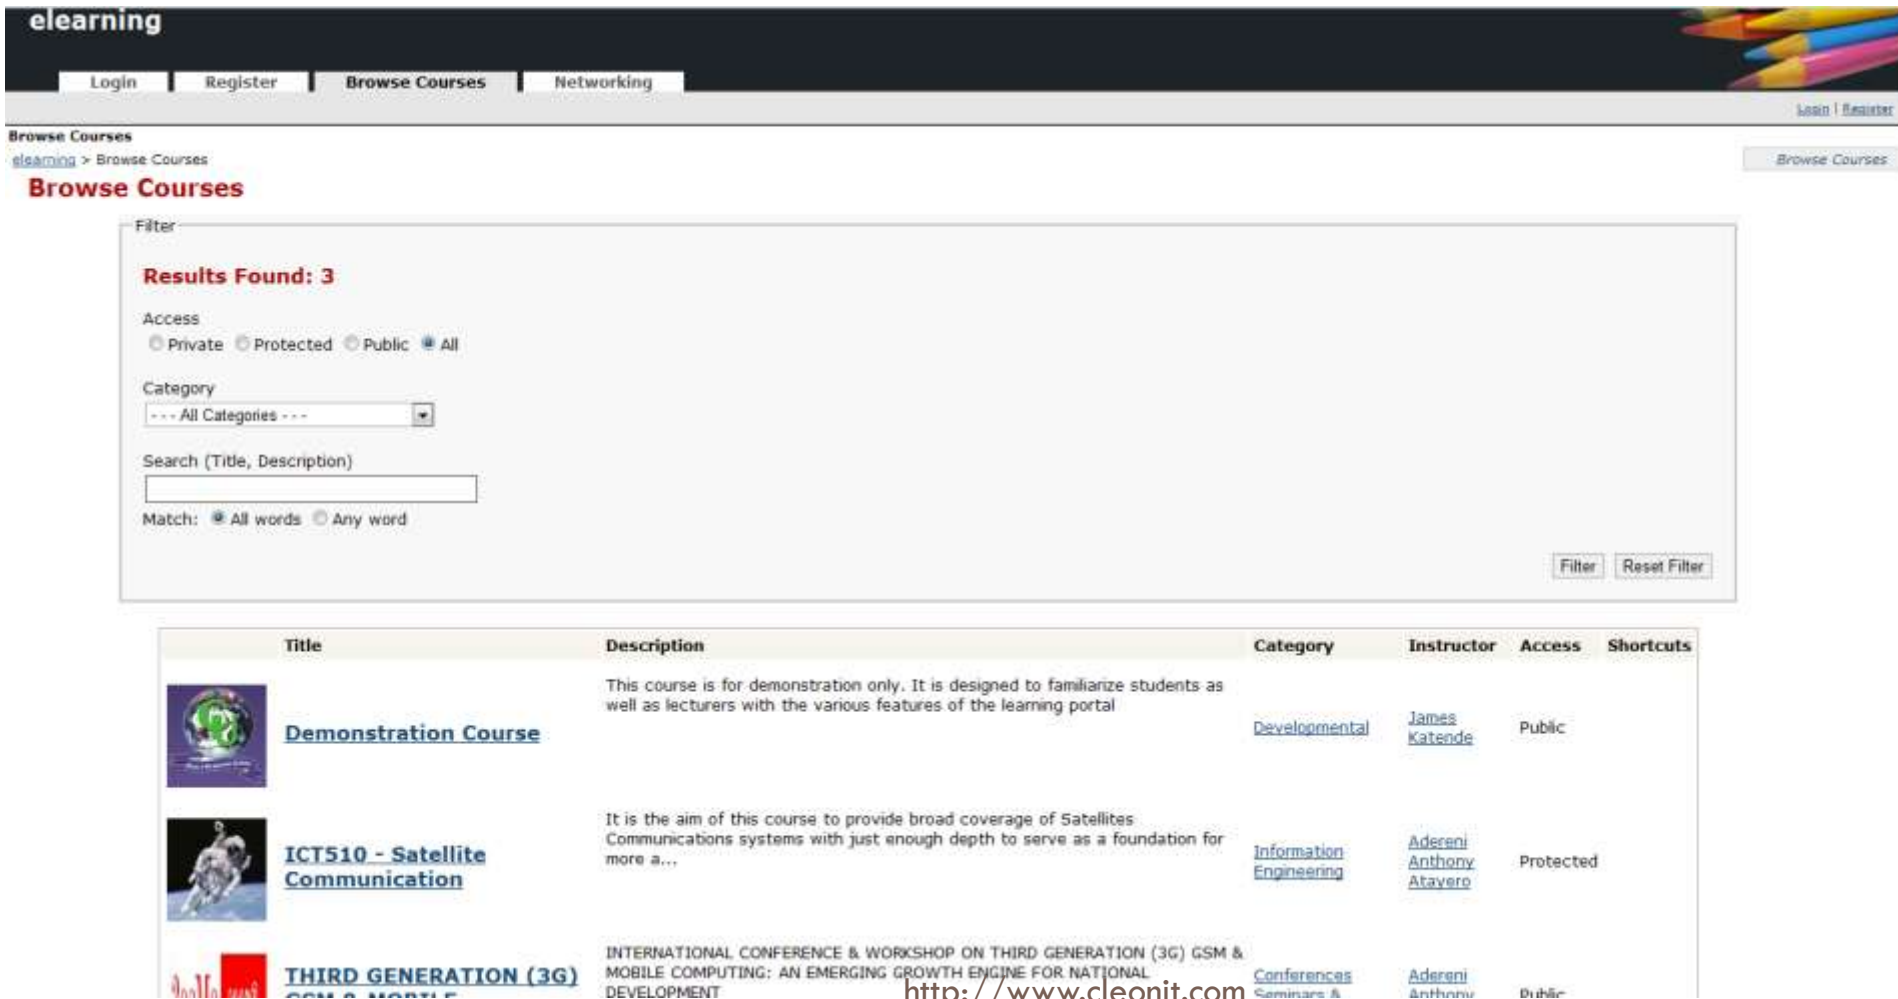

At the bottom right, there is a section titled "Add Video to Your Blog" with a text area for the video URL and an embed code:

```
Video url:  
  
Embed:  
<embed src="http://videos.hebrontube.com/pl"/>
```

BENEFITS

Benefits

- Its all about efficiency!
- Its all about results!
 - ▣ Work is done faster and much effectively at a reduced cost.
 - ▣ Notice Board Scenario
 - ▣ Automation magnifies efficiency
- ▣ And as John Chamber's said, though there may be a price premium, *true value can only be measured as a comparison of "your total cost of ownership v. your productivity."*

How does ACT action this?

□ **Communication**

Being able to get a message across at record time is crucial to the success of any institution. Imagine being able to send a copy of a document right from your seat to the desk of the dean and not waiting for a dispatcher to handle. This saves time and enables one to focus on other task. Also a community portal brings learning alive as the details and specifications of a particular subject or course can be easily brought alive because the presentation is accessible to every participant. The community portal essentially provides a central point to poll resources for various persons that need to have them essentially helping them to communicate effectively.

Benefits (contd.)

□ **Collaboration**

A community portal brings people together and when people come together ideas are being birthed, learning is enhanced and sped up because the up-starters and the professionals could easily relate.

Community portal would also enhance team/committee meetings as not all meetings would need to be face-to-face and the details of any meeting could be made available on the portal for those not present.

□ **Consistency**

The community portal would ensure that there is one and only one version of the truth. If you speak to 5 different people about a topic just discussed you most likely would get 5 different replies but a portal provides central authoritative information for everyone to access. It also makes it easy to update announcement as there is only one place to modify and present to the populace rather than working round the numerous notice boards that could easily be ripped off.

Benefits (contd.)

□ Consolidation

we are in an age when while you are in Lagos Nigeria, you could be receiving a lecture from a professor in Los Angeles USA as a result of a consolidated IT environment. Today's network is no longer about just being connected to the internet to browse the web, there is much more a network can offer. The community portal maximizes the network to provide services that would ease administrative workflow simplify learning and enhance general operation.

A situation where content can be re-accessed.

THE
INFORMED
CAMPUS

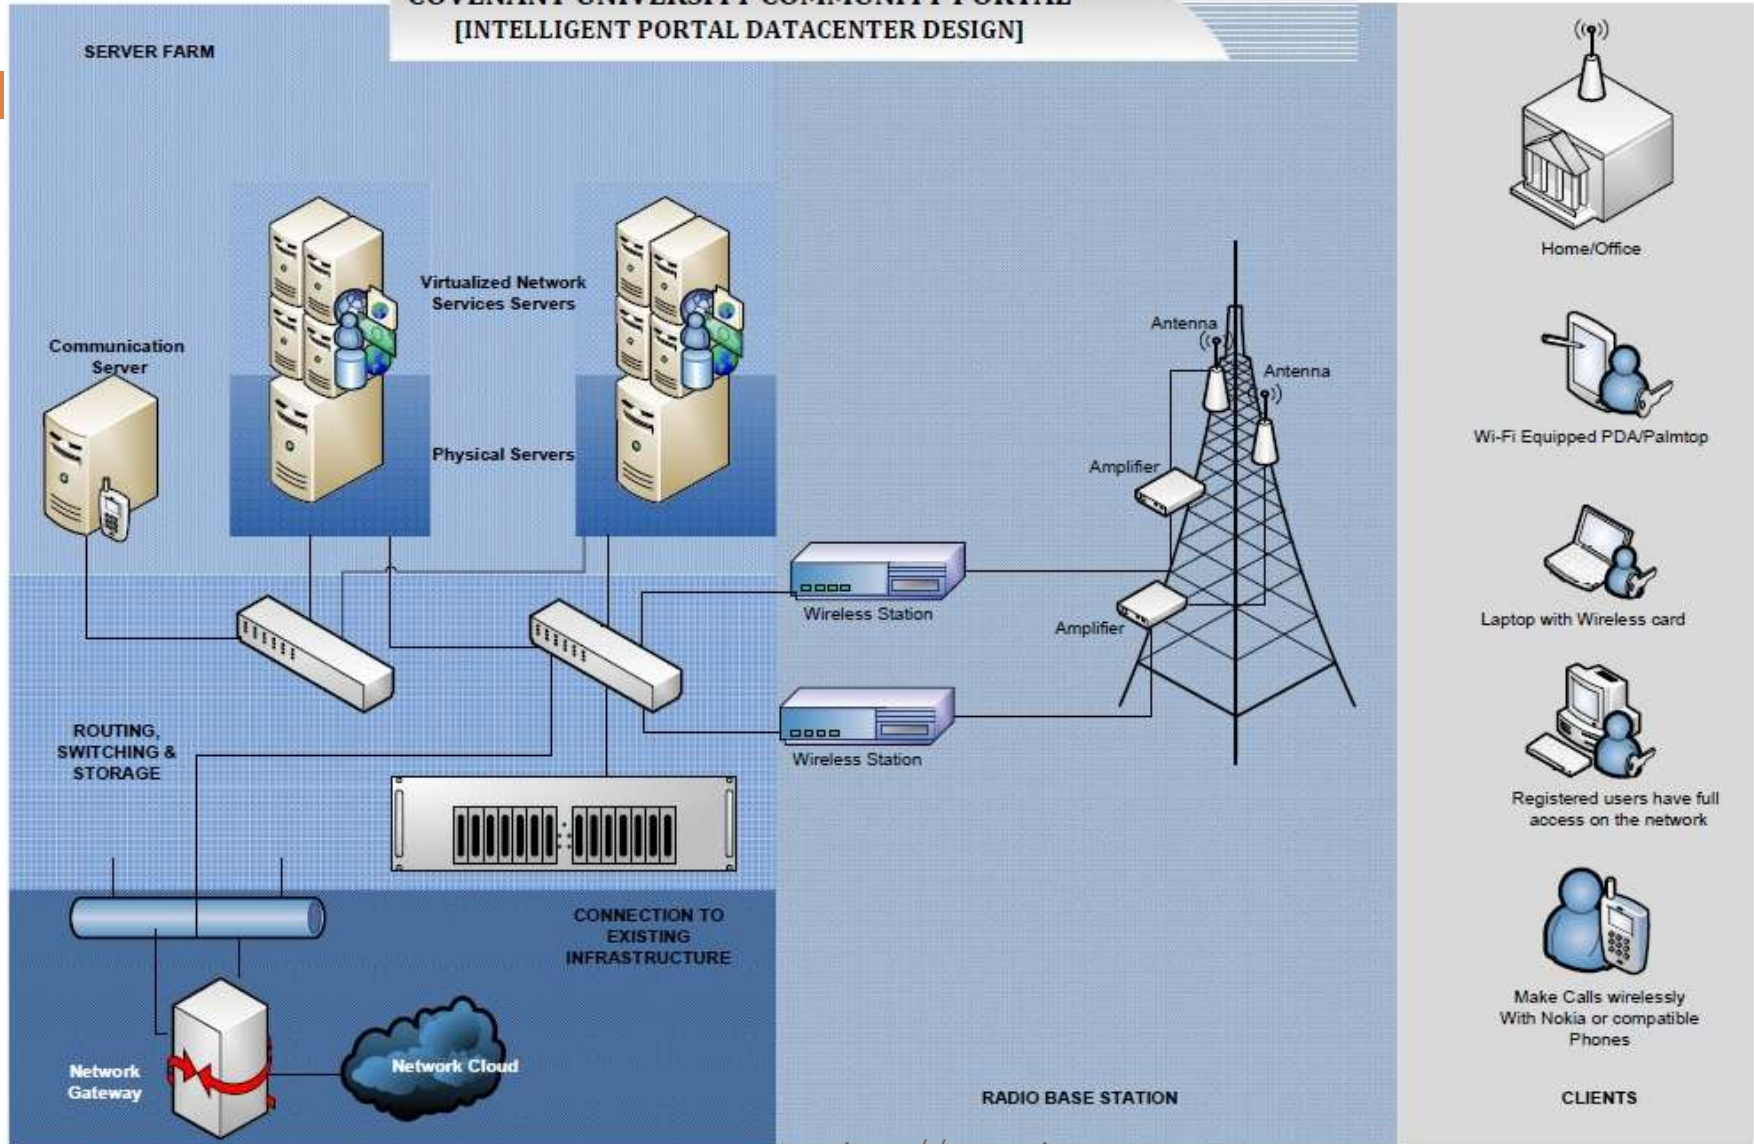

Deployment

- Acts Fusion Portal is “solution-in-a-box” technology. Each package offering comes with the Acts Fusion Portal Software with preconfigured hardware selection. When ACTS is specially ordered by client, it can be adapted to run on existing information infrastructure. In the event this ICT infrastructure is not in place, we can setup matching data center infrastructure for the corresponding platform.

System diagram

COVENANT UNIVERSITY COMMUNITY PORTAL [INTELLIGENT PORTAL DATACENTER DESIGN]

<http://www.cleonit.com>

NB:
[Drawings Not to Scale] | [For Representation Only]
[Final Network design might be slightly different]

A Look at the Requirements

- The following is the infrastructure needed to host the software.
- Core:
 - 1] Enterprise Server
 - 2] Virtual Infrastructure
 - 3] Routed Network
 - 4] Wireless & Wired Access
 - 5] About 300GB of Storage Space to start.
 - 6] Uninterruptible Power System
- Usage
 - 1] Community Sensitization
 - 2] Portal Management
 - 3] Samsung Smart Devices

The Service

- Acts Fusion Portal marries open source package with proprietary solutions for the most and effective deployment. Providing the service on this broad scale drastically reduces cost without comprising performance and eliminates issues arising from software licensing.
- The network services would be delivered mainly over wireless technology and anyone with the Samsung smart device can easily connect and utilize the service. Service would be provided only to registered users but some sections would be accessible to guests.
- The service can be accessed using only web browsers and integrated applications in the Samsung smart device eliminating the need for any software installation.

Enterprises Services edge

- Application Servers.
- A mix of Open Source and Proprietary software's, selecting the best of Both worlds.
 - Open Source \neq Free
- State-of-the art rack & blade server selection

Management & Monitoring

- Most activities can be tracked to determine who did what, what was done and at what time.
- Any undesirable content is pulled down by the administrators.

19	Handover	2 days	Tue 7/6/10	Wed 7/7/10																
20	First Support	5 days	Mon 7/5/10	Fri 7/9/10																

Implementation Recommendation

- Work with the CSIS and Student body each step of the way.
- Develop publication/content workflow

Conclusion

- If the enterprise would develop and maintain a robust, secure, and flexible infrastructure that allows efficient and reliable access to information and accurate data for learning, research, and decision-making by activating this portal for its day-to-day activities, it is sure to establish your organization on a global scale and ensure that she competes and operate effectively (internally in particular) as other high-ranking enterprises of the world.

ACTS Fusion Portal: *The Informed Campus*

- “Enabling the learning, research, administrative, and community goals of University, through the effective and efficient use of technology; allowing people to access information they need, at the required time, in the desired location, and in the appropriate format on any compatible device”.
